Things you should know:

- Quilts are made with 3 layers, the t-shirt quilt top, batting and backing. The price list includes a simple meander quilting design. Other quilting designs are available upon request and for an extra fee (it is my opinion, however, that the focus should be on the t-shirts and not fancy quilting :).
- Shirts should be recently laundered (please do **not** use fabric softener) and intact (excluding any holes, rips or tears to be mended).
- Each shirt will be cut** into 12" x 12" – 15" x 15" square depending on shirt size and quilt design. Unless otherwise discussed and agreed upon between Quilter and Client, it is possible that some decals may have a small portion cut away.
